How to Guide:
Software License Renewal.

Aug 2020

How to Update the Software License.

This document is to Guide you through the process on how to update the Software License

1. Log into **'GENESIS MENU'**.

   (Notice the RED line at the bottom.)

2. Double click on the RED line at the bottom.

3. Type in the '**License Renewal Key'** or click on the **earth** picture to download the new key.

4. Click **'OK'** button after typing in the License Renewal Key.

5. You will notice the RED line is missing that means the License is renewed.

6. Go to any '**Stock Control Module.**'

7. When clicking the **" i "** button, the Machine System Information will appear with all the necessary information.

8. This last screen will give you complete indication of the next **License expiry date**.

That concludes the User Guide.
